

DELETE TEMPLATE LAYERS BEFORE SAVING CUSTOM DESIGN

Change document size to 1.375" wide for white background designs with NO bleed ONLY and keep gray lines

Blue Outline: 1.125" wide

The art needs to be sent at this size because we need .125" on the edges for the bleed.

Black Outline:

Final Size of the ribbons will be 1" wide

Red Outline: 0.75" wide

Text or anything that is not meant to be cut off **MUST** remain within the red outline.

Please note that document Height will vary depending on designs to be used. This should include both the design and the spaces between designs.

Example - A 5" design with 10" between impressions will have art sent at 15"

Other Reminders:

- Document Height must be a "simple" number. ex- 1, 2, 3, 5, 10, 10.5, 12.75, etc.....NOT -1.333, 2.76 , etc.....
- We are currently using CS6.
- Please make sure that all fonts are **embedded or converted to shapes**.
- We prefer vector pdf files from Illustrator.
- If there are photos added to illustrator files they must be embedded.
- Any photographed art or raster images must be sent at 300 dpi.
